

A decorative network diagram in the top-left corner, featuring a complex web of interconnected nodes and lines. Some nodes are highlighted with blue circles, and others with blue dots.

Inteligencia Artificial II

Generalidades

A decorative network diagram in the bottom-right corner, similar to the one in the top-left, with interconnected nodes and lines, some highlighted with blue circles and others with blue dots.

A decorative network diagram in the top-left corner, featuring a complex web of interconnected nodes and lines. The nodes are represented by small circles, some of which are larger and have concentric circles, suggesting a hierarchical or central structure. The lines are thin and gray, connecting the nodes in a non-linear fashion.

1. **Profesores**

Profesores

Rodrigo Gonzalez, Ph.D.

rodrigo.gonzalez@ingenieria.uncuyo.edu.ar

Luciano Robino, Ph.D. Candidate

luciano.robino@ingenieria.uncuyo.edu.ar

A decorative network diagram in the top-left corner, featuring a complex web of interconnected nodes and lines. The nodes are represented by small circles, some of which are larger and have concentric circles, while others are smaller and solid. The lines are thin and gray, connecting the nodes in a non-linear fashion.

2. **Horarios**

Horarios

🎯 Clases

- Lunes, clase de teoría, de 18:00 a 21:00.
- Jueves, clase de práctica, de 18:00 a 21:00.

🎯 Consultas

- Se coordinan por Slack con cada docente.

A decorative network diagram in the top-left corner, featuring a complex web of interconnected nodes and lines. The nodes are represented by small circles, some of which are larger and have concentric circles, suggesting different levels or types of nodes. The lines are thin and gray, connecting the nodes in a non-linear fashion.

3. **Cronograma**

Cronograma

				Teoria	Practica
Fecha	Nro	Tema	Unidad		
08/03/2026	1	Linear and Logistic Regressions. Linear Model Selection and Regularization. Ridge and Lasso.	1	Rodrigo	Rodrigo
10/08/2026	2	Non-supervised learning: clustering and dimensionality reduction. K-means, PCA / Jueves: dataset de golosinas. Reglas de asociación, TF-IDF	1	Luciano	Luciano
17/08/2026	3	Introduction to Deep Learning. Weights matrices, Backpropagation, Design matrices	2	Luciano	Luciano
24/08/2026	4	MLP	2	Luciano	Luciano
31/08/2026	5	Deep learning for computer vision	3	Rodrigo	Rodrigo
07/09/2026	6	Advanced deep learning for computer vision	3	Rodrigo	Rodrigo
14/09/2026	7	Deep learning for time series. RNN. LSTM / Parcial 1, jueves	4	Rodrigo	Rodrigo
21/09/2026	8	Mecanismos de atencion / Recuperatorio Parcial 1, jueves	4	Luciano	Luciano
28/09/2026	9	Transformers y embeddings	4	Luciano	Luciano
05/10/2026	10	LLM	5	Rodrigo	Rodrigo
12/10/2026	11	LLM 2	5	Rodrigo	Rodrigo
19/10/2026	12	Generative AI for images	5	Pablo	Pablo
26/10/2026	13	Sistemas de recomendación con deep learning	6	Luciano	Luciano
02/11/2026	14	Lunes, charla a definir / Parcial 2, jueves		Rodrigo	Rodrigo
09/11/2026	15	Lunes, charla a definir / Recuperatorio Parcial 2, jueves		Rodrigo	Rodrigo

A decorative network diagram in the top-left corner, featuring a complex web of interconnected nodes and lines. The nodes are represented by small circles, some of which are larger and have concentric circles, suggesting different levels of connectivity or importance. The lines are thin and gray, creating a mesh-like structure.

4. **Metodología**

Metodología

- ⦿ Lunes, clase de teoría
- ⦿ Jueves, clase de práctica.
- ⦿ El día martes se entregarán ejercicios a determinados alumnos, en forma rotativa.
- ⦿ El día jueves, dichos alumnos deberán exponer.
- ⦿ La exposición es con nota.
- ⦿ Las exposiciones se promedian. Esta nota se agrega al siguiente parcial como un ejercicio más.

A decorative network diagram in the top-left corner, featuring a complex web of interconnected nodes and lines. The nodes are represented by small circles, some of which are larger and have concentric circles, suggesting different levels or types of nodes. The lines are thin and gray, connecting the nodes in a non-linear fashion.

Ejercicios de los alumnos

A decorative network diagram in the top-left corner, featuring a complex web of interconnected nodes and lines. The nodes are represented by small circles, some of which are larger and have concentric circles, suggesting different levels or types of connectivity. The lines are thin and gray, creating a mesh-like structure.

6. **Herramientas**

Herramientas

- ◎ Python
- ◎ Scikit-learning library (linear regression)
- ◎ Keras library (deep learning)
- ◎ Pytorch (deep learning)
- ◎ Langchain (LLM)

A decorative graphic in the top-left corner consisting of a network of interconnected nodes and lines, resembling a molecular structure or a data network. The nodes are represented by small circles, some solid and some hollow, connected by thin lines.

7.

Aprobación de la materia

Regularización

- ⊙ Asistencia (>75%).
- ⊙ Aprobación de los 2 parciales teórico/prácticos, o sus respectivos recuperatorios, con al menos 6.
 - Parcial 1, jueves 17 de septiembre de 2026
 - Parcial 2, jueves 05 de noviembre de 2026
- ⊙ Presentación de un anteproyecto

Aprobación

- ⦿ Ser alumno regular.
- ⦿ Presentar un proyecto final en la mesa de la materia.

Más información en el programa de la materia.

¡Gracias!
